## PROJECT PROGRESS

In recent months, the YOUNGPREENEURS project has reached **new important milestones**.

We are happy to announce that the **MOOC** (Massive Open Online Course) dedicated to female entrepreneurship has been officially launched!

The course offers innovative and practical content to **support young women** in their entrepreneurial journey. Since its publication, we have gathered valuable feedback from users and stakeholders.

The responsible partner is already working on changes and optimisations to make the course even more effective and user-friendly.

## TRANSNATIONAL MENTORING FORUM

In addition, the partnership worked intensively on the implementation of the **Transnational Mentoring Forum**, one of the project's key activities.

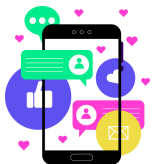

**Four sessions** were held in each partner country, during which young aspiring female entrepreneurs had the opportunity to meet with experienced mentors, discuss real challenges and receive personalised support.

The Mentoring Forum offers participants personalized guidance and time to develop their entrepreneurial ventures. It begins with introductory sessions led by speakers, followed by mentoring sessions in groups of 3-4, allowing participants to reflect, ask questions, and receive personalized feedback. The forum ensures ample time for participants to ask questions.

The enthusiasm and impact of the sessions exceeded expectations: **all partners expressed great satisfaction** with the quality of the interactions and the involvement of the participants.

In addition, the partnership has been actively working over the past few months to **disseminate information about the project** on social media, and the website is constantly updated in order to keep everyone updated on the latest news!
